## GALES ON BIG LAKES

Three Steamers Driven Ashore, One Wrecked and Another Pounding to Pieces.

### ONE OF THE CREW PERISHED

Many Vessels Have Taken Shelter-Marquette Reports Unusually Heavy Snowstorm for This Time of Year-Much Damage Is Done at Alpena.

Duluth, Nov. 29 .- One life lost, three others believed to have perished and the big ore carrier Mataafa of the Pittsburg Steamship company wrecked, tells the tale of the most thrilling and spectacular marine disaster at the head of the lakes in recent years.

Duluth, Minn., Nov. 29 -In one of the most terrific gales in the history of Wisconsin on the great lakes, even surpassing in fury the terrible storm of last September, in which so many men lost their lives in the vicinity of the Apostle islands, three big lake steamers were driven ashore within sight of the lighthouse at the Duluth entrance to the local harbor, and several members of the crew of one of the boats, the Mataafa, are believed to have perished.

The wrecks are the Crescent City and the Mataafa of the Pittsburg Steamship company, and the R. W. England, owned by the England Transportation company of Cleveland. As soon as interrupted telegraphic communication with other lake ports is resumed it is expected that further reports of wrecks will be received, for the storm is thought to have been a record breaking one. For 13 consecutive hours the velocity of the wind averaged 60 miles an hour, and at times blew at the rate of 70 miles an hour. The Mataafa is being slowly pounded to pieces. The crew of the Crescent City escaped, but the boat is

a total wreck. Terrific Wind and Snowstorm.

Detroit, Nov. 29.—Lake Superior from Duluth to the Sco, the upper peninsula of Michigan, the upper ends of Lakes Huron and Michigan and the northern counties of lower Michigan have been swept by a terrific wind and snow storm. Although a number of shipping accidents have been reported there has been no loss of life so far as learned. The blizzard raged with a velocity of from 40 to 60 miles an hour, and all the harbors from Port Huron north on Lake Huron and from Sault Ste. Marie north on Lake Superior are filled with vessels which have run in for shelter.

Marquette reports an unusually heavy snowfall for this time of year, with drifts so high that train and traction service is impeded and greatly delayed. Tremendous seas are running on Lake Superior off Marquette harbor and more than a dozen vessels are riding out the gale inside the breakwater there. Many wires are down between Marquette and the morth and communication was demoralized for a large part of the day. More than a foot of snow had fallen about Marquette in the afternoon.

### Greatest Damage at Alpena.

The greatest damage reported from Lake Huron as a result of the gale is at Alpena. The waterlogged barge Harvey Bissell, which was tied at a dock, was torn to pieces by the gale; the barge Vinland broke away from her consort and is aground, and the small passenger and freight steamer City of Holland went on the rocks while trying to make the harbor at crew were taken from the steamer in safety by a crew from shore. Docks and other waterside property sustained heavy damage at Alpena. Much damage was also done on Thunder Bay island, where the weather station and watch house were surrounded with water and the northern portion of the island was submerged.

The steamer Jim Sheriffs, which left Alpena with the barges Mowatt and E T Judd in tow, returned to that port last night without her barges and with one spar and her deck load of lumber gone The barges broke away In the storm. Nothing whatever has been heard from the E. T. Judd, and doing business in the penitentiary. it is feared that she may be lost. Captain Jex of Toledo commands the Judd and has a crew of about six men.

Milwaukee, Nov. 29.—A Sentinel special from Superior, Wis., says: The life savers have been unable to get the crew off the Matasfa. The boat has broken in two, but the decks ere still out of water. It is thought that the 26 men have frozen to death, as there is no sign of life on board

### Kilis His Son-in-Law.

Niles, Mich., Nov. 28.—Albert Hink ley, aged 51, shot and killed his son in-law, William Tuttle, agod 42, at the home of the former, six miles north of here. Hinkley claims Tuttle was trying to separate him and his wife.

Fuip Will Burned. Watertown, N. Y., Nov. 28.-Mil No. 4 of the plant of the International Pulp company, located at Hailesboro St. Lawrence county, was totally de-

stroyed by fire, entailing a loss of

\$100,000; insurance about \$40,000.

### **WORSE THAN MURDER**

Woman and Three Men Given Heavy Sentences for Trafficing in Girls.

New York, Nov. 29.—Punishment for trafficing in girls was meted out by Judge McMahon, who passed sen tences on one woman and three men for an aggregate of 32 years. "This traffic," said the judge, "is worse than murder."

By coincidence at the time he was passing these sentences an example of the traffic of which he spoke, with four gir.s from Reading, Pa, as the victims, had just been found by the police in another part of the city. These girls came to New York last Sunday, renting an apartment together. They had been mill operatives in Reading, they said, and came here in hopes of securing work which paid better. Detectives saw them walking on the Bowery with four young men. Believing that the girls were not ordinary Bowery characters. the detectives followed them until the men led the girls into an evil resort Following them, the officers broke down the doors of their rooms and rescued the girls, who had been trapped into the resort and were call ing for he p. The men were arrested charged with abduction.

The prisoners whom Judge McMa hon sentenced were charged with bringing three girls to New York from Newark, N. J. One of the girls, who was in court as a witness, is in such a condition that she is not expected to live. Two of the men received sentences of 10 years each, another go: six years and six months and the women received five years and six

### AFFIDAVIT OF PREJUDICE

Attorneys for Mrs. Taggart Filed It

but Later It Was Withdrawn. Wooster, O., Nov. 29.-An affidavit of prejudice was filed by attorneys for Mrs. Grace Culver Taggart, recently divorced from Captain Elmore F. Tag gart, in this city, against Judge Samuel B. Eason, who heard the trial. Later the affidavit was withdrawn by consent. It has been intimated that there will be a change in the decree as to the ground for granting the divorce.

Mrs. Taggart's affidavit alleges that Judge Eason was prejudiced against her and that the judgment of the court in the divorce suit was agains: law and the evidence, and that there were irregularities in the court during the consideration of the case. The affidavit also was directed against the consideration of the case. The affi davit also was directed against Judge John P. Maxwell, the only other judge in the district, because of alleged muqual regard between him and Judge Eason. It is expected that a motion for a new trial will be made some day next week at the request of Captain Taggart.

The Taggart boys will spend Thanksgiving with their father at Columbus.

### PRESIDENT FAVORS LOCKS

Agrees With Americans Who Signed Minority Report.

Washington, Nov. 29. - President Roosevelt has decided in favor of the construction of a lock canal at Pan ama at a level of 30 feet. This is the type of canal recommended by the five American engineers who signed the minority report of the board of consulting engineers. They rejected all plans for higher levels because they involved too many locks, and therefore too much delay in the passage of ships. They calculate that the canal on the 30-foot level can be completed in 10 years at a cost of about \$165,000,000.

In reaching this determination Pres ident Roosevelt has been largely influenced by the fact that the views Rogers City. The passengers and of the minority members of the consulting board are indorsed by all the members of the Panama canal commission, by Chief Engineer Stevens and by Secretary of War Taft.

### **FOLK IS INCENSED**

Prisoner Buys Stock in Company Doing Business in Penitentiary.

Jefferson City, Mo., Nov. 29.—Gov ernor Folk is greatly incensed to learn that James Hale, a federal prisoner. who was removed to Fort Leavenworth prison last Friday, is a stockholder in the Central Broom Manufacturing company, a corporation

The stock was bought by Hale about two weeks before he was removed to Ft. Leavenworth with money he had carefully accumulated by hoarding "tips" that were given him as a prison harher. Hale was sentenced by the federal court of Indian territory for 99 years for murder and has served six rears.

Advises Americans in Isle of Pines. Washington, Nov. 29.- Secretary Root has addressed a letter to Charles Raynard, president of the American society of the Isle of Pines, stating positively that in his judgment th Isle of Pines belongs to Cuba, and strongly advising the Amelicans there to submit themselves to Cuban law.

Chief of Police Dies from Wounds. Altoona, Pa., Nov. 29.—Samuel Tay lor, chief of police of Barnsboro, who was shot while arresting Frank Farrell, aged 24, Nov. 24, died in a Philadelphia hospital, where he had been taken for treatment. Farrell is still

### DEPOSITION OF

H. SOUIRE

Divdied Profits fro eration Among F Equitable---Ano

Bonds as Collate:

1 Unknown Op-Officers of the Witness Used

New York. Nov. 29.-Just before the insurance investigating committee adjourned Charles E. Hughes, counsel for the committee, produced a policy written by the Mutual Reserve Lif<sup>0</sup> Insurance company upon the life of an unknown, which policy stipulated upon the first page that the insure! should pay a fixed and stated premiums, "subject to other benefits and requirements elsewhere stated." On page 2 of the policy Mr. Hughes read a clause that the executive committee of the company could require the holder of the policy to pay any mu.tiple of the amount of the premium stated on the first page which the committee saw fit. George D. Eldredge, vice president and actuary of the company, to whom Mr. Hughes read the policy, said that the number of such policies issued was small.

Previously Edmund D. Randolph, treasurer of the New York Life Insurance company, had said that it was true that he removed \$700,000 of the New York city stock from the vaults of the company and put a check of the Central bank for that amount in the place of it on Jan. 5, 1901. Mr. Randolph understood that the bank wanted the stock for clients, one of which was the Merchants Trust company. He promised to give the committee later the names of the officers of the New York Life Insurance company then in the Merchants Trust company.

Describes Some of the Operations. formerly financial manager of the Equitable Life Assurance society, in which he described some of the operations of the syndicate which included officers of that society, was read to the committee. Mr. Squire said in it that in 1901 the Equitable society bought 2,000 shares of the damm, an Idaho tramp, who had been stock of the Lawyers Title Insurance/given two years and eight months for company and resold 1,500 shares t several of its officers and directors) They were handcuffed together and at the purchase price-\$174. Some of were taken to the station in the patrol the Equitable men sold their stock wagon. It was thought the whole later, said Mr. Squire, and subse-crowd was put on the Erie and Pittsquently large blocks of the stock were burg train, around which about 500 sold back to the Equitable society at persons had gathered to see them off \$310 to \$350 by the firm of William- After the sheriff thought all were son & Squire. That firm might have aboard the special car he made a bought it from the officers of the count and found two missing-Morri-Equitable society, Mr. Squire said, but son and Clamm. he did not know.

profit of \$22,000 had been paid to Mr aided in his escape. Squire from the sales of stock of the Lawyers Mortgage company to the Equitable society and that Mr. Squire had divided profits from an unknown operation, aggregating \$18,960, among four officers of the Equitable society-James W. Alexander, James H. Hyde, Thomas D. Jordan and W. H. Mc-

Paid \$18,000 to Hamilton.

The fact that the New York Security and Trust company paid \$18,-000 to Andrew Hamilton, the legislative agent, out of moneys belonging to the New York Life Insurance company was also brought out by Mr. Hughes.

W. S. Fanshawe, a dealer in investment securities, told the committee that in 1904 he bought New Orleans traction bonds of a face value of \$1,250,000 from the New York Life Insurance company and George W. Perkins, trustee of the "Nylic" fund, giving them his checks amounting to \$937,500 in payment and then borrowed the \$937,500 from the New York Life Insurance company, using the bonds as collateral. He then sold the bonds, giving the New York Life Insurance company 95 per cent of the profits and keeping 5 per cent.

### M'CLELLAN LENDS AID

Directs Attorney Not to Appeal from Decision to Open Ballot Boxes.

New York, Nov 29,-Mayor McClellan gave his aid to the efforts of William R. Hearst to have the ballot! boxes in New York's recent mayorally ! le. It was written in Italian and had election opened and the ballots re- te usual black hand and skull and counted. He announced that he had oss bones embelishments. The directed Alton B. Parlier, his attor- ligge has placed the matter in the ney, not to appeal from the decision inds of the county detectives. On of the supreme court which ordered to advice of the detectives the word five ballot boxes to be opened.

It was announced by members of tblic. the Tammany Pall law committee, after a conference at Mr. Parker's office, that they had decided to appeal from this order and that this appeal ite of the most extensive industives would delay the opening of the boxes the we tern end of Lebanon county, at least until next week.

## RELINQUISHES ONE-HALF

Now Sisters of Late Wife Sue to Get Rest of Wheeler's Estate. Lima, O., Nov. 29.—Surprise was

created in this city when it was announced that Dr. Wilson C. Watson, sole heir, by the death of his wife, Mrs. Milleretta Wheeler-Watson, to the Wheeler thousands, had voluntarily, in private settlement, relinquished half, or \$60,000, of the big estate to Nelson Wheeler, a brother of the former Lima merchant, whose widow Dr. Watson married two years ago. Nelson Wheeler and other heirs pre-

sumptive had instituted suit against Watson. No will had ever been found, but a purported "copy" of Wheeler's last testament had been admitted to probate whereby Mrs. Wheeler obtained sole possession of the estate. At her death, a fortnight ago, it became known that all the valuable realty of the estate had been deeded to her second husband. Dr. Watson, in fee simple, and that the remainser amounted to but \$200. Heirs of the widow and heirs of Wheeler instituted inquiry. They are alleged to have found on promise suit in Findlay a few years ago paid Wilhelmina Vought \$600 danages and that he had a wife in Adrian, Mich., who died a few years after the marriage.

Now relatives of the dead wife and witow of the merchant are threatening to exhume the body, and have consuted the coroner,

Ars. Mary A. Biteman and Lucinda Carlin, sisters of Mrs. Wheeler have filed action against Dr. Watson for; the other had of the estate, alleging that he was never legally married in Carada to the rich widow and had secued deeds to the property by fraud and influence, his bride being 76 years of ige. They obtained an injunction against any disposal of the property.

### DARING ESCAPE AT ERIE

Mrs. Chadwick Desires to Go on Witness Stand Again in Bankruptcy Case.

### SAYS NO ONE WILL BE SHIELDED

Intimates She Will Give Out Some

Information That Will Prove of In-

terest-Claims Others Were Bene-

fited Through Dealings With Her. Cleveland, Nov. 28.-Mrs. Cassie L. Chadwick has expressed the desire to go on the witness stand again in connection with the bankruptcy proceedings against her, and wrote a letter to record that Dr. Watson in a breach of Mrs. Chadwick declares that, if an

Referee Remington of the federal bankruptcy court requesting him to set a date for reopening her case. opportunity is again given her to go on the stand she will tell without, reservation all the facts concerning her financial dealings. For various reasons, Mrs. Chadwick said in an interview last evening, she had declined to give much desired information at her previous hearing in bank-, ruptcy. Now, however, she said, nothing will be concealed and no one shielded. "It has been repeatedly stated,"

said Mrs. Chadwick, "that I borrowed more than three million dollars. Whether or not this is true will be shown when I again take the stand in the bankruptcy court."

Continuing, Mrs. Chadwick said: "If the supreme court at Washington decides against me and I am compelled to go to the penitentiary, I shall before leaving Cleveland give out some additional information that will doubtless prove of interest. There are a number of financiers who benefitted very largely through their dealings with me. If I am to be puaished to It is no more than right that some of these men suffer with me, for if there ingion, referee of the federal bankwas any violation of the law they are surely as guilty as I am."

Either Judge Wing or J. P. Dawley, counsel for Mrs. Chadwick will go to Washington probably on next Monday to file an appeal before the supreme court of the United States in Mrs. Chadwick's case.

### TAKEN TO PENITENTIARY

Death Penalty First Inflicted, but Pardon Board Commuted Sentence. Uniontown, Pa., Nov. 29.-James

W. Ezell, the Kentucky telegraph operator who murdered Yardmaster William E Porter a year ago last July, was taken to the penitentiary by Sheriff Mart A. Kiefer to begin his lifesentence. The death penalty was first inflicted by the court, but the pardon board commuted the sentence to life imprisonment a week ago. The governor approved the board's recom-

Ezell's defense fund was contributed by the autional board of the Order of Railroad Telegraphers, of which he was a member.

### CRAWFORD ON STAND

Testifies That Nature of Business Was

Perfoming Criminal Operations. Boston, Nov. 29,-Louis W. Crawford, son-in-law of "Dr." Jane Bishop, and self-confessed participant in the suitcase crime, continued his story of how the body of Susan Agnes Geary. the dancing girl of the "Shephard King" company, was dismembered and disposed of in the trial of Dr. Percy D. McLeod, charged with being an accessory after the fact.

Crawford testified that Mrs. Dean and Dr. Henderson, who leased the Trement street office of the corporation known as Mrs. Bishop's, of which he was a member, paid \$300 a week, exclusive of office expenses. Witness admitted that the nature of the business at the Bishop office was the performing of criminal operations. He knew nothing of the Geary girl until he heard she was dying.

Witness said Mrs. Dean asked Dr. McLeod to sign the death certificate, but the latter said he would rather not, saying that there had been so many cases that suspicion would be aroused, and he feared inquiry would **be** made. Witness then had a talk with Dr.

McLeod in Mrs. Dean's presence in regard to the disposition to be made of the body and its dismemberment. Later Dr. McLeod came into the parlor and said the body was nearly ready. He had hard work, as he had been obliged to use the bath tub, where the body had been cut up to prevent from making a bad mess of the room.

Dr. McLeod told the witness that he had wrapped the body in oilcloth to prevent the blood from leaking through, and he had removed the intestines to prevent odor.

Witness heard Dr. McLeod tell Mrs. Dean to burn the intestines and afterward Mrs. Dean to d Dr. McLeod in his presence that they had been burned.

### MRS. CHADWICK TO TESTIFY

Has Promised to Make Public Many Details of Her Financial Affairs. Cleveland, Nov. 29 .- Harold Rem-

ruptcy court, after a conference with the attorneys interested in the Chadwick bankruptcy proceedings, announced that the hearing would be resumed today at 2 o'clock. This action followed the request of

Mrs. Chadwick that she be again permitted to go on the witness stand in y the interest of creditors. She has a promised to make public many details " of her financial operations, which sheef refused to divulge when she appeared in the bankruptcy count several months ago.

Mrs. Chadwick, in deciding upon this course, said she had been influenced in doing so, largely because of the fact that notwithstanding all her real and personal property had been sold, her creditors had received practically nothing, the money being almost entirely consumed in fees, etc.

The flower, detached from the headtress, was passed from hand to hand among the spectators, but their solici-. tuce soon gave way to a different emotion. The fatal resebud was an artificial one London Leader.

Snow Banners. In the Sierra Nevada mountains, when conditions are favorable for the display, there occurs a beautiful and startling phenomenon of nature. At times when the wind drives up the mountain sides in a certain direction and with sufficient velocity there stream out upon the air snow banners from a hundred mountain peaks. They are formed by the circling wind acting upon the light snow and are thick and dark at the top of the mountain, like a flagstax, then they float away broadly for a mile in length in waves of iridescent light. This magnificent display is rarely seen by other eyes than those of savages, but sometimes it has to witness it when among the wild beauties of the mountain fastnesses.

### MASONIC.

### Treatment of Visitors to the Lodge. From Various Quarries.

There is a want of sociability in some matter to correct. It is often thoughtlessness or timidity on the part of some members and of actual incivility on the part of others. In some lodges there are special committees whose business it is to receive, examine (if necessary) and introduce visiting brethren, to welcome them and make them feel at home. When there are no such committees some thoughtful brother can make the visitor feel at ease by stepping up and giving him a vigorous handshake and telling him how glad he is to see him. Then introduce him to other members and give him a seat well up to the east and not away over in the northwest corner of the lodge, where he is liable to sit all alone until be somewhat after the colonial style of the meeting is over.—Orphans' Friend. | architecture and will be five stories in At the recent convention of the

grand commandery of Missouri the membership was reported to be 5,288. There are fifty-seven commanderies in the jurisdiction.

The grand lodge of Indiana pays to its grand treasurer 2 per cent of the receipts for the year.

**fewer suspensions.** In Florida 20 per cent of the Master

Masons are Royal Arch Masons. The sixty-eight Royal Arch chapters

in Mississippi have a membership of 2,854. At last reports the fund being raised

for a Masonic sanitarium for consumptives in New York amounted to nearly \$7.000. On Dec. 12, 1797, Brother Benjamin

Hurd, Jr., of King Solomon's lodge, Charlestown, Mass., presented that ancient body with "a very ancient chair," which chair has been used at the installation of every worshipful master of that lodge since that date.

It is proposed by the Masons of Oakland, Cal., to sell their present building and erect a \$300,000 structure on another site.

The Royal Arcanum has its supreme headquarters in Boston and with the exception of a few prohibited southern states has councils in nearly every state in the Union.

The order embraces more than 2,100 subordinate councils, with a total of nearly 300,000 members, whose ages average slightly over forty-one years.

There are, according to recent reports, 10,100 members in the order over sixty-five years of age.

Mystical Seven council of Green Bay, Wis., is reorganizing its uniform rank and expects to have fifty members fully organized into a uniform rank,

### RED MEN.

### Notes and Gossip From Various Reservations.

Deputy Great Incohonee J. G. Albright is having great success in building up the order in Idaho. For his new tribe at Boise he has captured a number of state officials, including the governor.

Organize a degree team association in your tribe. Properly managed, this feature will be a source of wonderful benefit.

In Tennessee the reports for this great sun will show the greatest gain of members in the history of the reservation.

### LET THE GOOD WORK GO ON

\$6,415,000,000 Highest Ever Attained in This or Any Other Country.

Washington, Nov. 27 .- "Wealth production on the farms of the United States in 1905 reached the highest amount ever attained in this or any

other country--\$6,415,000,000." In the first annual report of his third term, Secretary of Agriculture Wilson presents an array of figures and statements representing the products and profits of the farmers of the country, which he admits "dreams of wealth production could hardly equal."

The report concludes: "Should there be no relapse from his present position as a wealth producer, three years hence the farmer will find that the farming element, about 35 per cent of the population, has produced an amount of wealth within 10 years equal to one-half of the entire national wealth produced in three centuries.

"Great has been the work undertaken and accomplished by this department, gratifying as have been the results, be it remembered that we are still at the threshold of agricultural development, and that the educational work which has led to such grand lation. There is not an intelligent patriotic citizen in the union who will not say with his whole heart. Let the good work go on."

Winthrop L. Meym says in the current issue of the Review of Reviews: The first step toward a further expansion of our over-seas commerce is to follow the example of every one of our mercantile rivals-from Great Britain in 1840 down to Germany in 1885, and Japan in 1896—and that is to create, by national aid, improved facilities of transportation. Just as instinctively as a great department store provides itself with its own men and wagons to deliver its own goods to its customers, instead of leaving this indispensable. service to the mercy of its rivals, have the great mercantile nations of the world provided their own ships and seamen. The United States and Russia alone have left the carrying of their merchandise chiefly to their competitors in peace and possible enemies in war. Now Russia, at any rate, has learned her lesson. It is announced from St. Petersburg that the czar's government will take vigorous measures to create a merchant marine, and that steamship lines with national subvention will be started at once from both the Baltic and the Black seas to New York.

### CONCERNING TURKEY.

All told, the pumpkin and the cranberry are the star trimmings for the purely American Thanksgiving turkey dinner. An occasional bon vivant may prefer some daintier bird and the fascinations of the French cuisine generally, but the majority of good citizens will like, for one day at least, to feast pretty much as did the brave ones of old who faced the dangers and privations of a new country that they might gain religious freedom. There is no reason, says the Philadelphia Record, why the Pilgrim Fathers of old should not have enjoyed practically the same dinner to which the average well-to-de citizen will sit down to this Thankgiving day. There were wild turkey aplenty; the Cape Cod cranberry is tic most famous of its kind, while it i said the aborigines planted pumpking among the maize as do agriculturist to his day. Found in the forests a! over the country was the wild turkey It is a native bird which greeted the exploring Spaniards. It was sent to European countries, even to Turkey and coming back again from there where it was supposed to have original nated, it was made a namesake of the sale.

## MEETING OF THE C. M. B. A.

Twenty-six Candidates Were Initiated Sunday.

### GRAND OFFICERS WERE HERE.

Initiating the Class-A Ban-- Several Addresses Were

Members of the Catholic Mutual Benefit Association, of Navarre, Canal Fulton, West Brookfield and Canton joined with the two branches in Massillon Sunday afternoon in initiating a class of twenty-six candidates accordpresent year. The initiation Sunday was the first of its kind ever given in Massillon. The degree work was performed by the Canton team and offi-

The members met in Schworm's large hall at 1 o'clock. The work was commenced at 2 o'clock and the last candidate was not obligated until 6 o'clock. Over two hundred witnessed the work. The candidates came from Massillon, Navarre, West Brookfield and Canal Fulton. Several grand officers were present to take part and witness the work. One week ago Sunday a class of two hundred and forty-six was initiated in Cleveland and next Sunday a class of forty-two will be initiated in Canton. The Massillon members and those present from other places at the meeting here will attend the Canton meeting.

At 6 o'clock all adjourned to the Trades and Labor Assembly hall, where the Auspices of Massillon a banquet was served. Plates were laid for two hundred and sixty. After the repast, Toastmaster Frank Vogt called the banqueters to order and welcoined the visitors and thanked all for the parts they had taken in the work on behalf of Massillon. The speakers of the evening included Grand President Charles Wechter, of Canton, who spoke on the principles of the order; Grand Secretary Joseph Winum, of Akton, who spoke of the financial workings of the association; the Rev. J. J. Lillis, of Massillen; Fred Foster, of Mass.llon; John Blake, of Canton; Charles Vignos, of Canton, and others. The committee that had charge of the meeting consisted of L. L. Volkmor, George Hoppoidt, Charles Ross, John Gruther, Joseph Donat, J. Dolsky, Frank A. Vogt, John Kohl, Nicholas Krebs and William Sifert. Piejarations had been made for the meeting during the previous two weeks.

The daily breakfast of the dence for the love of money. The reaverage Briton is bacon and eggs, sponsibility for this 'leak' is shared by Some hundred million of these break- everyone who, to get money without work, gambles in farm products. When but the supply has now dropped. There this form of industry ceases these are no peasants to collect the eggs, no parasites who tempt department offiends will have to work for their bread."

Analyzing the principal crops for the year the secretary says that corn for Great Britain. A furrier who was reached its highest production with 2,708,000,000 bushels, a gain of 42,thur before the siege brought with 000,000 over the next lowest year, him a consignment of Chinese eggs to 1399; hay is second in order of value, London. His friends here appreciated although cotton held second place during the preceding years. The hay crop this year is valued at \$605,000,000. Cotton comes third, with a valuation of \$575,000,000; wheat, \$525,000,000; oats, \$282,0000,00; potatoes, \$138,000,-000; barley, \$58,000,000; tobacco, \$52,-000,000; sugar cane and sugar beets. \$50,000,000; rice, \$13,892,000; dairy products, \$665,000,000, an increase of \$54,000,000 over last year.

"The farmers' hen," the secretary says, "is becoming a worthy companion to his cow. The annual production of eggs is now a score of bilions. Poultry products have climbed to a place of more than a half billion dollars in reward of \$200 for information leading value, so the farmers' hen competes with wheat for precedence."

With this enormous production, the secretary says the wants of 83,000,000 people have been supplied with a remaining surplus constituting a generous contribution to other nations. The exported farm products during the fiscal year ending June 30, 1905, had a value of \$827,000,000, which was less by \$51,000,000 than the average exports for the five preceding years. "During the last sixtee years," the secretary says, "the domestic exports of farm products have amounted to \$12,000, 000,000, or \$1,000,000,000 more than enough to buy all the railroads of the country at their commercial valuation, and this with a mere surplus for which there was no demand at home."

Secretary Wilson points out that the farmer is taking an important part in developing the manufacturing interests of the country by furnishing raw material, and that he has also become a banker. The farm contributions to manufactories during the year were \$2,679,000,000. Under the recent amendment to the national banking act allowing the establishment of banks with a capitalization of less than \$50,600, there have been 1,754 such banks established in the last year, nearly every one of which is located in a rural community and the capital furnished by farmers. Of these new banks tory of the South, deposits in the banks | board of trustees.

of that region now exceed \$1,000,000.

### A CIRL HORSE THIEF.

Myrtle Tipton Masqueraded as a Boy- Now in Jail.

Colfax, Wash., Nov. 29.—Myrtle Tipton, an 18 year-old girl, is in the Whitman county jail awaiting sentence to the penitentiary for horse stealing. The young woman is a native of Oregon and is the youngest daughter of Mr. and Mrs. Joseph Whitman. Her story is one of the most romantic ever related in the West. For years she Secretary Wilson Completes has masqueraded as a boy among men who never suspected her sex. Dressed as a youth she worked on a threshing outfit throughout the last summer on the Coeur d'Alene reservation, and slept in her blankets around the grain stacks with other harvest hands who-

### INTERNAL COMMERCE.

terior Primary Markets.

Washington, Nov. 29.—Internal com-

mercial movements curing October, as reported by the department of commerce and labor through its bareau of statistics, still continue to show marked improvements over similar activities in 1904. Prominently identified with these improvements were greatly increased grain receipts at interior primary markets and an exceptionally heavy traffic in live stock. On the Great Lakes the general tonnage movement was far greater than that for a corresponding period in 1904, while along the various coasts cereal exports reached a total over three hundred per cent in excess of similar withdrawals during the preceding year. Car shortage prevailed to a greater or less extent during most of the month, and nearly all of the more important railroads showed increases in gross earnings. The insistent demands made by shippers for increased transportation facilities are illustrated by the fact that the amount of new rolling stock ordered by the railroads during the first 41 weeks of the current year reached a total of 196,672 cars, as compared with 195,248 cars contracted for during the fifty-two weeks of 1904, heretofore the record year.

During the month of October recipts of grain at twelve important interior primary markets totaled 93,828,-129 bushels, an amount over 18 million bushels heavier than a corresponding movement in 1904. During the first ten months of the current year similar arrivals aggregated 583,836,717 bushels, of which 179,674,501 bushels were wheat, 175,802,571 bushels corn, 165,-223,660 bushels oats, 56,383,807 bushels barley, and 6,752,178 bushels rye. Corresponding total arrivals in 1904 amounted to 537,784,705 bushels, nnd of the gain thus indicated for the present year, wheat contributed 5,418,483 bushels, corn 21,091,329 bushels, oats 18,533,510 bushels, and barley 2,122,353 bashels, the receipts of rye having declined 1,113,663 bushels.

### KILLED BY A TRAIN.

Indianapolis, Nov. 29.—(By Associated Press.) - The body of an unknown man was found on the tracks of the Jefferson, Madison & Indianapolis road today. He had evidently been killed by a train. The name of George Grob, Cincinnati, was found written on a paper in his pocket.

By Orders of Secretary of Navy Autopsy Was Held on Branch's Remains.

### **BOARD'S FINDINGS ARE SECRET**

Impossible to Say Whether Its Rewits Will Be Favorable to Midshipman Meriwether or Otherwise. Body Was Reinterred.

Annapolis, Md., Nov. 27.—The body of Midshipman James R. Branch, Jr., who died Nov. 7 after a fist fight with Midshipman Minor Meriwether, whose trial by court martial on charges that include mainslaughter, was disinterred and an amopsy was held by a borrd of naval medical officers pursuant of orders of the secretary of the navy. The condition of the body was found to be such that those who made the autopsy will be able to answer ques tions that have arisen during the Meri wether prial as to the condition of Midshipman Branch's heart and other organs prior to the fight.

The board performing the autopsy was composed of Surgeon J. C. Byrnes, the ranking medical officer attached to the anyal academy, and Passed Assistant Forgeons W. R. Webb and R. E. Horn, also of the naval academy staff. As requested by counsel for Midshiyanan Meriwe'her, Medical Director Eleward Eames, fleet surgeon of the North Atlantic fleet, and Surgeon E. D. Gatewood were present, as was else Dr. L. W. Glaszebook, an expert in medical testimony, who has acted officially in autopsies held in Washington for some years. All those taking part in the autopsy were bound to secrecy as to their discoveries until their ovidence is given before the court martial. Surgeon J. C. Byrnes, ranking officer of the autopsy board. however, made the statement that "the body was in condition to furnish such evidence as was desired."

The autopsy was conducted in a tent erected in the naval cemetery near the grave of young Branch, but come of the organs were taken to the naval hospital for more minute examination. The work of the medical men basted until late in the afternoon, and at its renclusion the body was reinterral. Marines were on guard to keep from the vicinity all but those officially connected with the autopsy.

The examination was not made at the time of Branch's death was due to objections of his parents. Meriwethers counsel, however, have inditated that one of their lines of deas to Eranch's death having resulted from injuries received in the fight with Meriwether. They have questioned witnesses as to other possible causes induced by organic weakness and it was for the purpose of determining water such weakness existed in Transfer previous to the fight that the sulopsy was held. The silence imgosed upon mose present during the examination makes it impossible to whether its results will be favor-Me to Midshipman Meriwether or otherwise.

### ONE OF THEM DEAD

Five Italians in Act of Breaking Into Store Surprised by Officer.

New York, Nov. 27.-Surprised in the act of breaking into a store in Moriem, five Italians exchanged a Insiliade with a policeman in the course of which one of their number was shot in the eye and mortally wounded. One of the others was catpered and the rest made their escape.

The wounded man, who died soon wither being taken to the hospital, gave the name of John Galla. The police may be was a member of the gang beaded by the Italian known as Paul Kelly in whose saloon a man was Eming murdered a few days ago and who since then has disappeared.

### Has Abandoned His Attitude.

Havana, Nov. 27.-The government has received information to the effect that Congressman Guerra, who is charged with being a leader of the incurrectionary movement in San Juan de Martinez, has abandoned his al-Inged revolutionary attitude.

Eleven Are Missing.

Fosio, Nov. 27.-The steamer Ikuta, bound for Liaotung peninsula, colided with the steamer Fukura near Mutsore, not far from Shimonoseki. The Trues, which was struck amidships, arrested. sank immediately. Most of those on board were saved. Eleven are missing.

Slight Earthquake in Italy.

Rema, Nov. 27.-A slight shock of exphanke was recorded in all treconservatories of the kingdom, but coment little damage except to the cutreve southeastern section, which suf-Zeroz considerably. No live were lost.

Yaming Woman Kills Physician.

Montagello, Miss., Nov. 27.-Mrs. posed by his co-worker, D. L. Moody. Fances F. Birdsong, 19 years of age, wife of a dentist, walked into the offine of Dr. Thomas Butler, a physiweather, killing him instantly.

### SENATOR BURTON GUILTY

Jury Returns Verdict and Appeal Will

St. Louis, Nov. 27. United States Senator J. Ralph Burson of Kansas Rear-End Collision Between was found guilty by a jury in the United States circuit court on all six counts against him, charging that the

senator practiced before the postoffice Tepariment at Washington while a United States senator to prevent the

SENATOR J. R. BURTON OF KANSAS. issuance of a fraud order against the Rialto Grain and Securities company

The jury was out two hours. This is the second trial of Senator Burton on a similar charge. He was found guilty in the previous trial, but the verdict was reversed by the supreme

Senator Burron was ordered to appear in court this morning when his counsel announced a bill of exceptions would be presented and an appeal asked for.

### SHOOTS HERSELF

Mrs. Grissom Attempts Suicide in the Heart of Fashionable Washington.

Washington, Nov. 27.-Mrs. G. Grissom, a former resident of Denver, Co., and wife of an official of the Leaksville woolen mills, near Spray, N. C., lies in a dangerous condition at the emergency hospital here as a result of attempting suicide in Farragut park, the heart of the fashionable quarter of Washington. Mrs. Grissom shot herself in the left breast and abdomen, and the hospital officials say she may recover, but that they cannot say positively vet.

The young woman has a brother-inlaw in this city, Eugene Grissom, an employe of one of the departments. It is stated that she had separated bense will rest upon a possible doubt from her husband. A dispatch from Greensboro, N. C., says that her father-in law, Dr. Grissom, was superintendent of the North Carolina insano asylum.

### ASSETS ALL ON HAND

Surplus Over and Above Liabilities Amounts to \$67,142,865.

New York, Nov. 27 .- Mossrs. Price. Waterhouse & Co., chartered accountants of Great Britain, and Messrs. Haskins and Sells, certified public accountants of New York state, have jointly made an examination of the affairs of the Equitable Life Assurance society of the United States and certify to the following statement of Sept 30, 1905;

"The assets of the society, as claimed, are all found to be on hand and in value amount to \$416,166,500.10. The surplus over and above all liabilities amounts to \$67,142,865.42.

"The reduction in assets is brought about entirely by a conservative revaluation, most of which is in real estate and in shares owned by the society in certain financial institutions."

### DENIES ANY CONNECTION

Abbott Says He Is Not Member of Chicago Firm Bearing His Name.

Chicago, Nov. 27 .- The Chicago police have received a telegram from L. D. Abbott of East St. Louis, Ill., in which Abbott denies having been connected in any way with a Chicago firm which bears his name and which is said to have swindled agents of the company out of \$250,000.

Abbott, according to the police, says that he allowed E. L. Hughes, manager of the concern, to use his name to conduct a book company and had no knowledge of the business of manufacturing women's wearing apparel in which lengthes was engaged. Three persons connected with the firm were

### INJURED SERIOUSLY

Wreck Takes Fire and Some of the Passengers Are Incinerated-Signals Were Obscured by Thick Stark County. Weather-Many Persons Rescued.

Lincoln, Mass., Nov. 27.—The most disastrous railroad wreck in this state door of the Court House, in the city of Can-for many years occurred at 8.15 ton, on Saturday, Novem er 25, 1905, the following described real estate, to-wit: disastrous railroad wreck in this state

Many passengers sustained minor cuts, bruises and burns.

The wreck was primarily due to thick weather, which apparently obscured signals set by the forward train, which at the time of the disaster was standing in front of Bakers Bridge station. The Montreal train, drawn by two locomotives and consisiting of nine cars, crashed into the rear of the Marlboro branch local, demolishing the two rear cars.

Engineer and Fireman Killed.

All of the passengers killed and

partment was available, so that the flames practically burned themselves out. The uninjured passengers and a number of train hands, assisted by villagers, went to the aid of the jured and many persons were rescued.

brought a number of doctors, while many doctors from Waltham and other scene in carriages and by other trains.

Dwellings Turned Into Hospitals. The railroad station and a number of dwelling houses were turned into temporary hospitals and many volunteer nurses assisted in relieving the suffering of the injured. Just before hurt, who could be moved in safety,

The train upon which practically all the casualties occurred left the North station in Boston at 7.15 o'c ock with four cars filled with passengers, most of whom had been visiting relatives in that city and vicinity. The train runs over the main line of the Fitchburg division and stops at way stations. The second train which figured in the collision is known as the Sunday night Montreal express, with St. Hyancinthe, Que., as its destination. The express consisted of two locomotives, two milk cars, two baggage cars, mail car, three coaches and a Pullman sleeper.

Train Was Running 35 Miles an Hour. The Montreal train does not stop at the small stations and after passing Waltham does not stop ordinarily until it reaches Concord, two miles west of Bakers Bridge station. Owing to the heavy local traffic the Mariboro branch train was behind time when it reached Bakers Bridge. According to the statement of persons who were at the depot there, a brakeman was sent to place a fuse or red fire torch some distance in the rear. The night was unusually dark, partly owing to a dense mist which came up the Sudbury river. According to those at the station at the time, the torch had not been set more than a minute before the roar of a heavy train around a curve a short distance east of the dopot was heard. Within a few seconds the headlight of an on-rushing incometive showed through the mist and before a hand could be lifted to warn the passengers in the waiting eling at a speed of 35 miles an hour, crashed into it. The impact was terdescribable scene of death and rum.

The leading locomotive telescoped the second engine forced this mass against the third car of the local and completely wrecked it. In these two cars all but two of the fatalities oc-1 curred and practically all of the infuries. The collision destroyed the 4 forward locomotive of the train and the engine following, although considerably damaged, did not leave the rails. None of the cars of the express was thrown from the track and the collision apparently had little effect upon those in them.

Massillon.

We have a friend whose share of the corn crop-one-half-during 1904 paid him \$13 per acre rent for the use of his

Mexico has a short crop of cereals this year and proposes to remove the tariff duties on grain imported. There is nothing like hunger to give a people contempt for the tariff.

Fifty bushels of good corn from the acre of \$100 land is a very good proposition when it sells for 50 cents a bushel, for it leaves a net profit of over \$15 per acre, and this is a good rate of interest on \$100 land.

for about \$100 per ton it is one of the paying crops. The great trouble conis the difficulty of securing the help at to waste around many a homestead. the right time to care for it.

country where it is summer all the ever work, and hard work, which makes the man.

lawful fence along the right of way of a railway company and is eaught by a train and killed, is the company liable for the value of the animal? In law it is not, but most companies in such cases would rather pay than bother over a lawsuit to recover damages. In all such cases the bull nearly always brings more than he would at any well advertised sale of pedigreed stock.

The crow is largely a scavenger, an unclean bird. A dead animal never gets too dead for its appetite, and a nest full of eggs partly incubated is a titbit for this black cannibal. All birds fight and make war on the crows, and with good reason. Wherever crows are plentiful there all other birds are few. It is only insectivorous in its habits by compulsion and belongs to the carnivora in an ornithological way. Crows, rabbits and sparrows are pests of our modern civilization and should be de stroyed on sight.

The crop losses of the west and northwest this season have been almost entirely from water and not from frost or drought. The great need of this section is to get rid of just such an excess of rainfall as we have had this year. Millions of acres of corn were ruined by having wet feet during June and July, preventing proper cultivation and retarding development at a critical time; another million acres of small grain were drowned out. The truth is that hardly a farm can be anywhere found where more or less underdrainage would not pay a hundredfold. The profits of the year could

We always like to have the winter come on gently and easy, the nights growing a bit colder each week as the sun sinks a little farther and further south, the first snow just a sprinkle, soon to melt away, the trees gradually their winter browns and grays, have the wild fowl work slowly south and tarry awhile and have nature leisurely and the almost entire absence of any go about preparing for the long cold winter and not have an ideal Indian north wind and big snows, eatching wild fowl at a hundred mile an hour! ciless cold finding every crack in house

We are asked what grasses will best renovate a wornout soil. All grasses are good for this purpose, but some are much better than others. Any grass which has to be pastured off and which | now worth 15 cents each. cannot be well removed from the soil seve by pasturing it will always help the soil. Conspicuous in this class is blue grass. Then we have the clover family, which possesses the peculiar property common to the legumes of be- now worth about 35 cents, feed it and ing able to extract fertility from the atmosphere and deposit it in the soil, the common red clover being the best adapted for all dry, arable land, the alsike clover for all wet lands and the Alfalfa where it will do well is a reyears man can come back and repeat enough to square up. If we could not his havec and robbery.

Modern business life is of that strenuous type that twenty years of it will about finish up a man, while the farmer can keep a going till he is seventy.

In the Philippines the natives call the American schools "clerk shops." this because they claim that as soon as a Filipino gets educated he knows too much to work. We have something which only just barely pay for the food of this kind in this country.

both 'thicker and greener next sum-

We can all have oranges to eat this winter. Florida will have 1,500,000 boxes and California will have about 30,000 carloads, and the chances are that the men who eat them will make more money out of them than the man who produced them.

The best all round remedy for rats is cats. A half dozen cats, preferably old tabbies with a kitten or two, if given a ration of new milk twice a day will put in most of their time in laying for the rats. This beats traps, ferrets, poison and all other remedies ever tried.

bering on the farm: Barnyard manure is worth a dollar a load put out on the It costs about \$40 to grow a ton of cornfield, and fertilizer from the poulbroom corn brush, and as it now sells try yard and henhouses when composted with two-thirds its bulk of earth is worth \$2 a load, and still there nected with the growing of this crop is lots of this valuable material going

We do not think that the territory of Just as soon as a man is placed in a the eastern states and of the central west has any use for alfalfa save as a year round, where little clothing is hog pasture. The crop will not work in needed and a food supply is easy to any course of rotation, and the heavy get, just so soon he becomes lazy and rains of June and July often make it no 'count. It has always been this way almost impossible to cure and save the and always will be. It is always and first two cuttings of the crop, but it has a use and a most important one in connection with the hog, and no farm should be without five acres of alfalfa. Where a breechy bull breaks down a for its sole value as a bog pasture.

> A man never makes any money out of a machine unless it is working. Now, the cow is a machine pure and simple, and if she is not kept at work there is no profit in keeping her, and to get something out of her there must be something put into her, and the man who thinks he can make money by scrimping the feed of his cows is very shortsighted. The cow should be fed up to the limit of her ability to assimilate food if she is to be made profit-

> Where the writer lives thousands of sheep are being shipped in from Mon tana and Wyoming and being turned into the corn fields to harvest the crop and incidentally fatten themselves for market. The plan works very satisfactorily unless there is too much rain; then there is some waste. The sheep is a dainty feeder and rarely wastes its food, as does the hog. This plan has many advantages-it saves the cost of harvesting the crop, it fertilizes the field and it gets all the weeds cleaned up if the sheep are turned in early enough.

Reports of hog cholera are beginning to come in from different sections, and so we may begin to look out for all sorts of fake cures for this disease. It is just as well to remember that in spite of all the claims made that this plague can be cured there is no discovered cure for it. The prompt disposal of all well animals, the isolation and starvation of the sick ones and a complete change of location seem to be the only course to pursue when an outbreak occurs. The everfeeding with new corn seems to niwa s invite the disease, and it is probably true that if all hogs were fed a better balanced ration the disease would largely disap-

We are asked what the post timber shifting from their summer green to of the future is to consist of, a question of no little importance, in view of the rapid destruction of all our forests well directed effort to replace them. There is more than a possibility that summer day wind up with a roaring the fence post of the future will be made of cement. Cement posts are everybody unprepared and sending the already being made and used with success. The future is quite likely to see clip toward the south country, the mer- machines costing but little which will enable every farmer to make his own fence posts and secure posts which will be practically indestructible. When cents apiece, as they will be, there is no need to worry over the failing sup- funds, and it is really becoming the

> With a pretty large crop of good corn in farmers' hands all through the corn belt a good many are wondering whether they had better hold the crop, make meat out of it or sell it. The crop this year is a safer proposition to hold than for several years past, for it ripened naturally, unhart by either frost or drought, and will keep well. The government estimate of the crop, 2,600,000,000 hushels, if correct, would seem to forecast lower prices in any get the steers and owed no man we

would hold the crop till next summer.

FARM WASTES.

matter of being vigilant and inventive nure put on the lawn just at the begin- wastes of his business--waste acres of ning of winter will make the grass land which produce nothing but weeds. waste of the fertilizers in the barnyards, waste weeds in the fields, waste along the line fences, waste for want of a little tiling, waste in granaries and cribs from leaks and vermin waste in keeping and milking cows which they eat, waste in buying on credit and running up store bills, waste in poorly stacked hay, wasted fodder in the cornfields, stacks, or, rather, piles, of good straw spoiled for want the wind should force it where it is needed, in trying to make first quality beef and pork out of poorly bred and often poorly fed steers and hogs, and the waste which is inevitably assoclated with a mru being a little behind with his work. There is a great it is the dodar saved as well as the dollar earned which has much to do keeps the sharpest sort of an outlook ever alert to adopt methods for the utilization of waste products. The tailton seed, once used as a fertilizer alone, coal tar and the Lyproducts of corn used in the glucose fact ries represent is always well and patriotically engaged when he devises a method to larger field for effort along this line than on the tarms of the country. The wastes on many a western farm would constitute a good year's income for the small farmer in Vermont.

A FARM AS AN INVESTMENT.

A friend having a few thousands which is only returning him 4 per cent interest wants to know whether he can put it into a farm on the basis of \$100 per acre and by hiring the work done or by letting the farm out on shares secure a better return for his money. It is not easy to answer this question, for so much would depend upon the farm itself, upon his general knowledge of how to run a farm if he chose to carry it on under his own supervision or on the sort of tenant he secured if he let it out on a share rent. If his farm of, say, 160 acres cost him \$16,-000 he would have to secure a net return, of \$640 to equal his present income from his money, and, do the best he might, he would be quite as likely to get less as he would to exc od this amount; not that it is not easily possible to make a better showing than 4 range or by proxy is seldom a large interest producer. The profits as well as the losses in farm operations are connected with the little things to a great extent, and little leaks will soon live on the farm himself and credit to the farm what it is fairly worth as a home it would alter the case, for the single item of house rent alone would represent about one-half of \$640, and, be bought at high prices. He had probably better be satisfied with his 4 per cent rather than undertake to make during the year.

Wherever dirt roads have to be worked and cared for-and that is throughout most of the rural districts of the country at large-there may be noted a very marked improvement of methods as compared with the old way. A more intelligent and permanent plan of operation is being followed. The road | The resolution provides that instead boss this year is no longer undoing and of quitting work on such occasions tearing to pieces what his predecessor did last year, the absolute need of a ployment and contribute 25 per cent thorough drainage of the highway is of their earnings as a fund for the being generally recognized, and the benefit of the afflicted family. The value of drain tile for this purpose is average daily wages of the men at the being more and more appreciated; theresuch posts can be furnished at 25 is apparent a much more economical and effective expenditure of the road; ply of oak and cedar posts, which are custom now to expect and demand a full day's work for a day's pay-in a word, the people are taking a much greater interest in the highways than ever before and are at last waking up to the important relation which good roads bear to the economy of farm life; the rural mail delivery system is doing not a little to spur the farmers up, for the government puts the mat, ter to them flat-"no roads, no mail." Under the new method of caring for earth roads it is becoming quite a common thing to find farmers dragging and keeping the highways along their respective farms in fine shape and doing it all without public pay just for the pleasure and pride which they take in having good roads associated with their farms. This is one of the most

The farmer can well afford to pat tern after the manufacturer in the vania company formally opened its A coating of well rotted stable ma- in the way of trying to utilize the of proper stacking, waste in burning green wood and lugging water where field for work along all these lines, for with form profits. The manufacturer for the wastes of his business and is ings of the gold and silver mines, the possibilities and economic value of city garbage, the siag piles of the blast furnace, the sawdust from the sawmills, the offal of slaughter houses, the grease in the wool of the sheep, have made enormous fortunes for the men who were wise enough to take hold of these heretofore waste products, while cotmillions of money invested and other millions in annual dividends. A man prevent or utilize a waste, and nowhere in the whole country is there a

per cent, but usually farming at long empty a hig barrel. If our friend could again, his living expenses would be greatly reduced as compared with living in a city, where everything must it more by bandling a farm located where he can only see it a few times

### ROAD IMPROVEMENT.

### **NEW ROUTE OPENED**

Better Train Service Between Cleveland and Eastern Ohio Cities.

Cleveland, Nov. 27.-The Pennsyl-

new route between Cleveland and

Pittsburg, via Ravenna, Youngstown

and New Castle. A special train in

charge of District Passenger Agent J. B. Modisete, carrying railway officials and newspaper representatives of this city, made an inspection trip over the new route, going as far east as New Castle, Pa. By the construction of a line between Ravenna and Nies. O., which has been completed, the Pennsylvania is enabled to reach Youngstown, New Castle and other important points on a direct line between Cleveland and Pittsburg. The new schedule provides for eight daily trains each way between Cleveland and Pittsburg, two of which will run via of Youngstown and New Castle. There will also be two additional trains running between Cleve and and New Castle daily. FOUR PEDDLERS HELD UP Two Were Seriously Wounded in Re sisting and Robbed of \$600. Lancaster, Pa., Nov. 27.-Four ped

dlers, Isaac J. Francis of Coatesville. Joseph H. Maurice, Abbis Shibent and Moses A bert of Philadelphia, made the rounds of the camps of laborers on the new railroad in the southern part of the county, disposing of a great quantity of merchandise. They were on the way from Creswell to Safe Harbor when eight Italians held them up and with drawn revolvers de manded their money. The peddlers resisted.

In the fight that followed Francis and Maurice were shot and robbed of \$600. Shibent and Albert escaped and gave the alarm. The wounded men, each with a bullet in his head, were taken to the hospital at Columbia Their condition is serious. A posse is searching the vicinity of the crime for the highwaymen.

### KILLS WIFE AND HIMSELF

Because He Was Jealous, a Miner Commits Murder and Suicide.

Latrobe, Pa., Nov. 27.-Mad with jea casy, Steven Czintel shot and killed his wife and then himself at their home in Dorothy, a little mining village a mile west of here. The couple were married three months ago. Czintel was aged 23 and his wife 26.

The husband was insanely jealous of an Allegheny butcher and had stated he would kill either him or himself. Soon after going to his home in the afternoon shots were heard and neight bors rushed to the house. The bodies of Czintel and his wife were found lying on the floor. He was already dead and the woman died a half hour later without regaining consciousness' A 32-calibre revolver was found near Czintel's body.

### SHOOTS BOON COMPANION

Rusty Revolver Was Cause of Boy' Death in Presence of Playmates.

Dayton, O., Nov. 27.-Dropping dead in his tracks, Johnnie F. Clark, a 15year-old lad, residing at 17 Newcom street. South Park, exclaimed as he expired, "Oh. I'm shot!"

Allen Adams, aged 14, held the weapon, a rusty revolver, the discharge of which caused the boy's death in the presence of 30 or more playmates on the gridiron at the Men's Welfare park.

Young Adams became temporarily bereft of his senses after the tragedy and rushed up and down the field, lamenting the fatality, one of the saddest that has ever occurred here. The boys were inseparable companions.

### ADOPT WISE COURSE

Instead of Stopping Work Will Contribute Part of Earnings to Family.

Scranton, Pa., Nov. 27.- One of the largest of the mine workers' locals, that located at Throop, has adopted a resolution that is possible of being adopted generally as a solution of the operators' grievance, based upon the men stopping work on the days of the death and funeral of any mine warke "

the men shal, continue at their em-Throop colliery . Mounts to about \$700.

Woman and Child Burned to Death. Towanda Pa, Nov 27.-Mary Shavlor, aged 30 years, and Henry Whitmiller, a babe of 8 months, were burned to death in a fire which destroyed the house of William Askley in Towanda township. Two men were seriously burned and several others sustained severe injuries. The inmates of the house had been drinking freely and the fire was started through the accidental upsetting of an oil lamp.

### Set Date for Special Election.

Philadelphia, Nov. 27.—Lieutenant Governor Brows and Speaker Walton of the house of representatives agreed on Jan. 9 as the date for the special election for members of the legislature to fill vacancies caused by the death or resignation since the close of the last session.

### Four Men Cremated.

Washington, Nov. 27 .- Four men, all colored, were burned to death in a fire which destroyed the office building of a kindling wood yard at 3002 B street, N. W. One of the bodies is believed to be that of James Orr, the proprietor of the yard. The others have not been identified.

### Thousands Have Kidney Trouble and Never Suspect it. Xmas Presents Now.

How To Find Out.

Swamp-Root, the great kidney remedy,

fulfills every wish in curing rheumatism,

pain in the back, kidneys, liver, bladder

and every part of the urinary passage.

It corrects inability to hold water

## DR. KUTCHIN EX. U. S. EXAMINING SURGEON,

te of Chicago. Greatest Living Specialist for the Treatment and Cure of all

Long-Standing and Difficult Cirronic Diseases and Diseases of the Blood and Nervous System. Consulting Surgeon at Maplewood Sanitarium. Will, by special request, meet his many patients in this county every month for the next year, and examine all afflicted free. Ohio office, Columbus, O.

cases He trompth that this town every four weeks and with self continue as long at God spares hon to the afficient.

The Doctor treats no neuto diseases, but makes a specialty of chronic and long-standing diseases. Cases given up by other doctors and pronounced incurable, he most desires to see. Dr. Kutchin has treated over 12,000 cases in Ohio in the last two years, many of which had been given up as incurable, some to be Blind, others leaf, and a Large Number to be Invalide for Life. Now they See and Hear, andmany are on the high toad to Health. The Doctor is surrounded with a first collection of instruments for examining and treating all chronic diseases of the Head, Face, Eye, Ear, Throat, Heart, Longs, Stomach, Liver, Kicheys, Bladder, Skin, Brain and Nervous System, Cancers, Tumors, Piles, Swellings, Old Sories, Fits, Brainses, Neuralgia, Rheumatism, Dropsy, Gout, Sick rleadache, Debrity, Depression of Spirits, Diseases of Children, Hereditary Diseases, etc., and, in fact, all long-standing and chronic diseases. EXAMINATIONS FREE TO ALL.

Whenever it is known that Dr Kutchin is stopping at a place, crowds gather toconsult him, and it is not to be wondeted at when it is temembered that in diagnosing a
disease he never asks a question, but describes the different diseases better it at the sick can
then selves. It is a wonderful gift for anyone to possess, and Dr. Kutchin's diagnostic
powers have created wonder throughout the country.

He adopted the following plan, which is peculiar to the large hospitals, and is not and in verhas been the practice of country doctors, viz. he carefully notes the syntomic of the patient, and
ascertains the condition of the internal organs, all of which he carefully recensive in the graviter
for future reference. In this way he accutains the true nature of the disease and its cause
When sick people consult him he readily tells them whether he can cure or help them, or whether
they are beyond hope.

HIS IMPROVED METHODS OF TREATMENT.

Are mild and pleasant; agree perfectly with the most delicate Lady or Child, do not reduce strength, can be used while at work, and give the presided possible benefit in the shoriest possible time. Putents can consult him or communicate with him as often as they choose, during the whole time required for the cure, without regard to where they may be, and without extract charge thus rendering the treatment as successful and satisfactory as though they were bying next door to each other.

MANHOOD PERFECTLY RESTORED.

Quick, points and certain cure for Impotency, Lost Manhood, Sprinatorihora, Losses, Weakness and Nervous Debility, also for Prostatis, Varicocle, and all private diseases, whether from impudent hilbits of youth or sexual excesses in mature years or any came that debilitates the sexual functions, speedily and permanently circl. Consultation free and strictly confidential. Absolute cures guaranteed in cases curable. No risk incurred. DISEASES OF WOMEN.

Such as have buffled the skill of other physicians and remedies. Dr. Kutchin quickly cures nears. Tumors, I throid and Polybroid. Grawths cured without the use of the knife. No utting, no pain, no danger A LIFE OF EXPERIENCE.

The Doctor has had a whole life of study and experience in his profession, and enjoys santages which fall to the lot of but few! After attending his Full Courses in the Medical gest and graduating with the highest bonors, he was not content to stop there, that is since attended other Colleges, and several times reviewed the whole profession, has also as since attended other Colleges, and several times reviewed in whole profession, use assistance of improvement, having visited the best Medical colleges, lo-pitals. Dispensaries. Eye, Ear, Lung and other Medical and Surgical Institutions, reveling thousands of noise, both by land and sea, expending thousands of dollars; mproving every advantage within his command, and develing the best years of his life to be come horoughly familiar with his profession in all its brain lies. LATEST DISCOVERIES AND IMPROVEMENTS.

Dr. Kutchin has received the most approved instruction in Analytical and Microscopical Examinations of the Blood, I rine, etc. which are new considered indispinsible to a correct diagnosis in many diseases. There are many diseases which physicians in common practice do not usually treat, and are, therefore, seldom prepared with necessary and costly outlit to examine correctly, or treat with success, such cases, therefore, would do well to call at once and learn their true condition, and whether the doors of Hope are yet open, or forever closed against them.

FACTS FOR MEN CF ALL ACES.

By reason of false modesty the youth of our bind are kept in ignorance of the ribious results which certain solitary indiscreet practices produce. These when persusted in eventually undermine the constitution inducing nervous debility and promature decay. Dr. Kutchin has for many years enjoyed the distinction of being the most successful and celebrated specialist for the trefthent and are of these affections. You may consult him with complete confidence. Of all the maladies that afflict manking there is probably none about which physicians in general practice know so little.

DELAY IS DANCEROUS.

Many diseases are so deceptive that hundreds of persons have them before they even suspect it. They know they are not well, but are perfectly ignorant of the deadly fangs which are fastening upon them, and must, somer or later, certainly destroy them, unless rescued by a skillful hand. Are you afflicted? Your case may now be perfectly curable, but Remember, every moint of neglect brings you nearer its incurable stages, when, perhaps, the most skillful physician can replic you no assistance. The present is ours, the future my ic Too Loies. Epilepsy or Fits seasificatily treated and cured by a never failing method. Free Extransition of the Urine. Each person applying for medical treatment should send or long 2 to 3 outputs of urine, which will receive a careful chemical and microscopical examination. Persons smakillfully treated by ignorant pretenders who keep triffing with them nearth effectively according to of the united and see the Doctor. nearly distributed by treated by the property of the potent property distributed by the potent property of the potent property distributed by the potential and the property of the potential and the property of the potential and the examined and at least learn the cause of your diseas, and if it can be a red. Tape Worms removed in from three to five hours without starvation. The remedies for the whole course of treatment are fornished from the Office or at the Institute, all at once or by the month.

### STATE OF AFFAIRS SERIOUS in which the convicts secured arms

Admiralty Council Has Agreed to wagon gate in the outer wall of the Recommend to the Emperor That immediate Steps Be Taken to Ameliorate Condition of Sailors.

St. Petersburg, Nov. 28.—Though the mutineers at Sebastopol are still masters of the situation at Admiralty Point, and though armed parties have apparently free access to the town. notwithstanding the announcement These were let over the stockade, received from Vice Admiral Choukning for the arrest of Spencer. commanding the Black sea fleet, represents the situation in an optimistic light. Three dispatches which were read at an extraordinary council of Eccentric Woman Retained Body of the admiralty declare that most of the mutineers have decided to surrender with their arms, though such action involves trial for mutiny before a son, an aged and eccentric woman, a court martial.

Authorities Dare Not Interfere.

the Associated Press from Sebastopol say that revolutionary orators have succeeded in winning over a battalion of reservists and that, in spite of the arrival of reinforcements to the number of several thousand, the authorities did not dare to interfere with a review hed by the mulineers before Nov. 7, 1881, was found. The body who received the stock. the cathedral of St. Vladimir.

So far as known most of the demands of the mutineers have to do could be learned here last night Mrs. with service conditions, including the release of reservists who have served beyond their time; increase of pay; increase in the allowance of food, and heard of either. the removal of alleged incompetent and brutal officers.

Beyond a determination to proclaim martial law, nothing of a definite nature has transpired regarding the decisions arrived at by the admiralty council, but it is reported that the council agreed as to the justice of many of the demands made by the mutineers and would recommend to the emperor that immediate steps be taken to ameliorate the condition of the sailors

Forced Officers to Leave Ship.

The latest dispatch from Sebastopol mays that the mutineers forced the officers and crew of the cutter Otcha-1 koff to leave the ship. The crews of the battleships Rostislav and Tria pital, where an operation was at once Sviatitalia, so far as at present known, performed and the bullet removed. talion, however, has joined the mutineers. Several companies of the Vilna regiment have arrived at Sebastopol from Theodosia.

Otessa, Nov. 28 .- According to private dispatches from Sebastopol, Vice Admiral Chouknin has frustrated the Engineer Found Dead in Cab of His design of the mutineers to seize the Black sea fleet and sail for Odessa by

dispatch from Admiral Chouknin, commanding the Black sea fleet: "The mutineers have left the Kniaz L. D. Williams.

may jour the mutineers.

"A very serious state of affairs prevails here. Several officers have been killed."

Sints Curv. Ia., Nev. 28. The guard about the jail in which is confined J. H McWilliams, accused of murdering his wife and five children, has been doubled owing to a fear of the officers that an attempt may be made to lynch the prisoner.

WAS NOT RECORDED

Stock Valued at \$700,000 Taken from Company's Vaults and Replaced by Check.

### DID NOT KNOW WHO RECEIVED IT

Much Evidence Given About the New York Security and Trust Company's Participation in United States Steel Corporation to Extent of \$3,250,000.

New York, Nov. 28.—One of the most interesting features of the life insurance investigation developed only a few minutes before adjournment of the Armstrong committee, when Theodore F. Banta, cashier of the New York Life Insurance company, testi-Edmund D. Randolph, treasurer of the company, opened the vaults of the company, removed New York city stock valued at \$700,000 and put a check of the Central National bank for \$700,000 in its place. Mr. Banta said he helped to open the vaults at the order of Mr. Randolph and that he supposed Mr. Randolph acted for the finance committee. The stock then returned and the check withdrawn. The transaction was not recorded on the books of the company so far as Mr. Banta knew. The effect of the operation would be that anyone having that stock would have \$700,000 terment certificate signed by F. R. worth of taxable property at the end Boutelle, undertaker, Amherst, Mass., of the year. Mr. Banta did not know

GEORGE W. PERKINS.

George W. Perkins, vice president i the committee the transaction which resulted in his receipt of \$40,193 from Kidder, Peabody & Co., of Boston, as half the profits of the sale of \$2,000,-000 worth of bonds of the Mexican Central Railroad company. Milton M. Mattison, a bookkeeper of the New York Life Insurance company, had previously testified that \$930,000 of the life insurance company's money was used in the transaction and that Botton for the Nylic fund, which is owned by the agents of the New York Life Insurance company, and that he invested the profits for that fund. The insurance company, he said, profited to the extent of a per cent interest on the loan of \$930,000. He to the \$40,193 profits.

Mr. Perkins said also that J. P. Mor can & Co. had taken up notes of Andrew Hamilton and E E. McCall, forsupreme court, amounting to \$56,310, at the request of President John A. McCall of the New York Life Insursurance company for the proceeds of a aged 60, one of the best known resisyndicate in United States Steel corporation stock.

### Took Hamilton's Note.

President John A. McCall told the committee that he had told the Central National bank and E. E. McCall that Hamilton was good for \$50,000, and they had then taken Hamilton's notes. President McCall said the New York Life Insurance company owed Hamilton \$56,310 and took the syndicate profits to pay him. The result was that the payment did not appear on the books of the company. The reason was that he wanted to keep Hamilton's expenses down. Much evidence was given both by

Mr. Perkins and President McCall about the New York Security and Trust company's participation in the United States Steel corporation syndicase to the extent of \$3,250,000, having the deposits of the New York Life Insurance company for about that amount. The New York Life Insurance company got 75 per cent of the profits and Mr Perkins contended that it was a safe and proficable ventyre. President McCall said the life

Force Increased 4,000.

Washington, Nov. 28.-A report received here says the number of employes on construction work for the Panama canal now aggregates 17,000, shout 4,000 having been added to the force since the last report from the isthmus. Of the 17,000 about 1,500 are white Americans.

### LEATH LIST IS 16

Practically Settled That Was Number Killed in Railroad Wreck. Lincoln, Mass, Nov. 28 - After a

day spent by wrecking crews in clearing away the remaining traces of Sunday night's disaster at Bakers Bridge station, on the Fitchburg division of the Boston and Maine railroad, and an investigation by the raitroad officia s, state authorities and the newspapers, it was practically settled last night that 16 persons lost their lives, 12 were seriously injured and a score cut and bruised as the result of the rear-end collision between the Montreal express and the Mar.borough branch local train. Investigation by the railroad officials began immediately after the accident.

Inspectors representing the state railroad commissioners made a separate examination and on Wednesday Judge John S. Keyes of Concord will hold an inquest. President Lucius Tuttle of the road deciares H. W. Lyons, engineer of the leading locomotive of the Montreal train, is responsible for the disaster.

Engineer Lyons, who is not seriously injured, has reached his home in Charlestown. The engineer is alleged to have admitted seeing some of the signals used for the protection of the accommodation train.

Another Wreck on Boston and Maine. South Waterboro, Me., Nov. 28.-Three men were killed and two inhere. A regular freight train from Nashua for Portland, on the Worcester, Portland and Nashua division of the Boston and Maine railroad, was taking a siding here to pass an extra from Portland. The extra, drawn by two engines, crashed into the freight before the latter cleared the switch.

### BURGLAR IS KILLED

Broke Into Home of Hardware Clerk, Who Used His Weapon.

Punxsutawney, Pa., Pov. 28.-Jack Butler, a miner at the Eleanora shaft, was shot and instantly killed by J. B. Beam in Big Run. At midnight Mrs. Beam was awakened by a noise downstairs. She aroused her husband. Peering down the stairway he saw a man at the landing. The stranger was challenged, but he continued to ascend the stairs. Beam fired two shots into the wall, expecting to frighten him away. The burglar followed Beam into the

latter's bedroom, where, during a tusale, Beam fired again. The bullet struck the man's heart and he fell dead. Beam is a clerk in the Campbell hardware store at Big Run, and having taken the day's receipts home with him it is supposed Butler's motive was robbery.

### NINE KILLED IN EXPLOSION

Keystone Powder Works at Emporium Entirely Destroyed.

Emporium, Pa., Nov. 28.-An explosion in the mixing house and in one of the packing houses at the Keyinjured several others.

Only one body was recovered. Searchers are picking up the other bodies in small pieces. No damage members of the guard regiments who was done in the town.

Breaks All Previous Records. Harrisburg, Nov. 28.-The state treasury department has practically completed the distribution of the school appropriations of \$5,500,000 appropriated for the current year, which became due the first Monday of June last. This breaks all previous records for the prompt payment of the districts, all of which have been paid except a few that have not yet filed stated that the company had no right their annual report with the department of public institutions.

Sentenced 20 Years for Murder. They demanded house since Aug. 13." a supply house at the slope, which is! four mil's from the colliery and connected by a railroad, but were refused.

the accident. Miller was 21 years old. eastbound express train.

## LAST DAY OF GRACE BACK-ACHE

No Signs of Surrender of Mutineers at Sebastopol at Midnight.

### SAILORS PLAY WAITING CAME

Dispatches Show Land Forces of Empire in a State of Discontent-Cossacks Only Branch of the Service Whose Fidelity Is Unquestioned.

St. Petersburg, Nov. 29.-The last 4ay of grace accorded the mutineers at Sebastopol expired at midnight with no signs of surrender on the part of the men. The hills towering above the harbor of the Russian stronghold in the Black sea may soon resound, as they did in the days of the Crimean war, with the roar of musketry and cannon shoud the government attempt to carry out its announced intention of crushing the revolt with the mailed fist.

The rebellious sailors are playing a waiting game and apparently have full confidence that the guns of the fleet will not be turned against them. jured in a collision of freight trains; If they are not actually disregarded the summons to haul down the red flag, they seem determined to make the authorities show their hand. Doubtful if He Accepts Challenge.

Whether General Nepuoff, the com-

mander of the fortress, who was released by the mutineers and who relieved General Baron Meler Gakomolskie, will dare to accept the challenge of the mutineers and stake the discipline and loyalty not only of the troops at his disposal, but of the whole E. W. LaBeaume, G. P. & T. A., St. troops at his disposal, but of the whole army on the Cast, is, however, doubtful. Dispatches from a score of garrisons in Russia show that the land forces of the empire are in a state of discontent, and any order to the troops to fire upon their comrades in the sister branch of the service might possibly precipitate a general and widespread mutiny. On the other hand, it would be difficu't to starve out the sailors by a regular slege, as provisions and water can be obtained by them, as they are under the guns of not unfriendly warships. The report that the whole fleet had

gone over to the mutineers under the command of Lieutenant Schmidt, the revolutionary commander of the cruiser Otchakoff, is incorrect, though the officers of the other ships, as during Vice Admiral Kruger's abortive Dressed Pork..... demonstration against the mutineers on the Kniaz Potemkin (now the Panteleimon- at Odessa, probably will be unable to obtain obedience of the men for the carrying out of any measures against their comrades. Guarded by Cossacks.

It is reported that the yachts are drawn will be removed to of Orrville. A good flowing well of St. Petersburg on account of disaffection among them.

### WILL GRANT SUFFRAGE

Austrian Crown Gives Assurance That It Will Be Done.

Vienna, Nov. 29.—A new epoch is

marked in Austrian history, for the Austrian people throughout the entire land made known to the crown their imperial demand for equal suffrage, and even as this demand was being voiced the crown, through Premier Baron Gautch von Frankenthurn, in parliament, was assuring the people that its will would be done. The premier promised to bring in by the end of February a bill providing auctioneer. for a full and free universal equal and direct suffrage.

The people made known their demand by a series of monster demonstrations in all the principal cities for trial at the next term of the fed- and towns of the country. From only one town, Austerlitz, are serious disorders reported. There the troops fired on disorderly demonstrators, St. Louis, Nov. 28.-Fire partially killing two and wounding 30. Otherwise the demonstrations were charac-St. Louis. The smoke awakened Mrs. terized by the maintenance of order

> What is the Use of Deception. St. Petersburg, Nov. 29.-Prof. Hod-

upon the premier to demand permission for Father Gapon to return to Russia. "What is the use of deception among friends?" said Count Witte to the professor.
